financial analysis and
trading tools for 27 years.

Dear CTS Subscribers,

"Ever since we launched the highly successful CTS Swing Trader advisory, my e-mail has been flooded with requests for a step-by-step course on How to Swing Trade. And for good reason, swing trading has racked up some amazing profits for CTS subscribers.

I use the word amazing to not only describe total gross profits, but also, for how risk averse the method has been while generating those returns.

Consider the facts.*

Since the CTS Swing Trader Advisory started offering recommendations back in August of 1999, we have had 100 trades of which 54% have been profitable. Total gross profits have been \$12,047, with the maximum closed trade drawdown of just \$1,400*. That's a return/drawdown ratio of 8.71. CTAs that manage client money are considered legendary with return/drawdown ratio's of 2.5 to 1 or higher. Imagine if you could learn and master Swing Trading and generate those kind of numbers in your account.

Here's your big chance to master Swing Trading!

Now for the first time ever, I reveal through three 90 minute videotapes and a 104-page companion handbook, exactly how to Swing Trade for consistent profitability. Nothing is left out,

I'll walk you step by step through the core concepts and then through my proven 5 steps to swing trading success. I wrap up my section going over several trade recommendations made this year, telling you the rationale for trade selection, timing and exit strategy.

Learn proven concepts and techniques from a 20-year trading pro.

What's more, trading pro and expert programmer, John Sheely, will give you specific objective instructions for swing trading. He'll prove to you that swing trading works from a scientific basis covering 20 years of past performance on a diversified group of markets. John has recently joined CTS bringing with him over 20 years of trading experience, including being a CTA and managing up to 50 million dollars for institutions. You'll absolutely love the candid communication style John utilizes to enhance your learning experience.

Risk disclaimer:

*I would be remiss if I didn't disclose that the trades mentioned above are based on recommendations posted on the CTS web site. Also, since the trades were not actually executed by CTS, they are considered hypothetical and slippage could have been larger than we estimated in good faith. More over, we did not subtract commissions from results shown.

"I sure appreciate all your good Swing Trader recommendations. My account looks better than it has in the 3 years I've been trying this business."

- K. Renchin

"..keep up the good work, Swing Trader is making money for me."

- R. Henry

"As a new subscriber to all your swing trade services all I have got to say is WOW! I'm a new futures trader in the last 12 months and all I had been doing was turning a larger account into a smaller account. Thanks to you and your team this has now turned around. Keep them trades coming!"

- T. Jones

You can see the track record. Observe the low drawdown and large, quick profits in the record of trades¹. Now learn the powerful CTS Swing Trading methodology in this new video seminar. **Master CTS Swing Trading** reveals the proven approach and powerful secrets that we've developed and refined over the last 10 years. CTS President Nick Van Nice and Director of Technical Research John Sheely will take you on an easy-to-follow tour sharing the details of how to be a successful swing trader. ORDER NOW AND YOU WILL RECEIVE...

3 VHS videotapes—each approximately 90 minutes in length—along with a 104-page companion guidebook filled with supporting charts and information. Well over 4 hours of visual learning can be yours for only \$499. Plus, our 30-Day, 100% Satisfaction Guarantee!

Video 1 will build a solid foundation in the core concepts of Swing Trading. You'll learn directly from the master himself, Nick Van Nice. Nick presents the concepts and tools in detail so you'll learn how to swing trade with complete confidence. Additionally, you'll get his 5 proven steps to swing trading success. You'll see exactly what indicators he uses, exactly how to apply them, exactly how to time entries, establish profit objectives, stop loss and more. Absolutely nothing is left out!

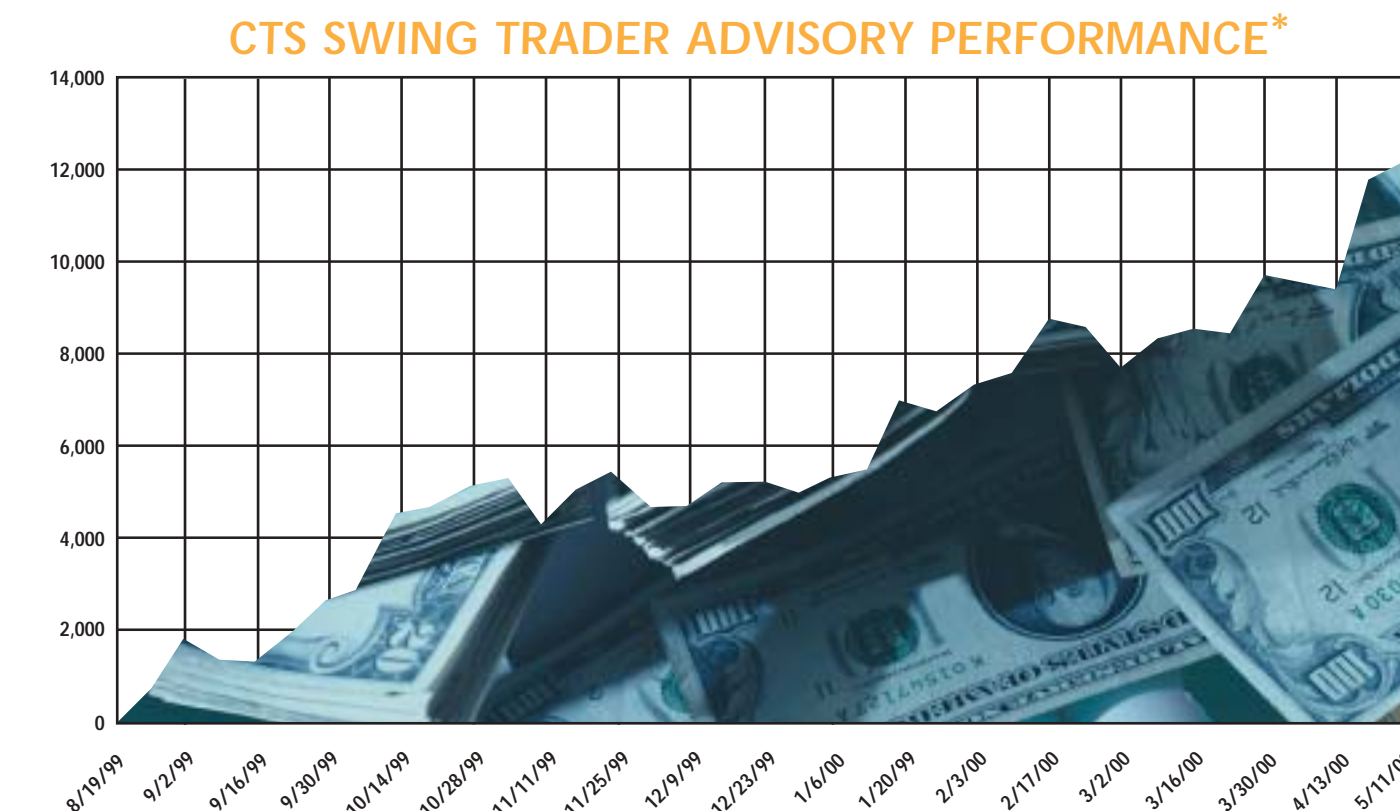

Video 2 builds on the fundamentals as Nick walks you through several trade examples utilizing his 5 steps to swing trading success. You'll hear first hand why we bought at one price and took profits at another. Here's your chance to get inside Nick's mind as he shares his thought process for every dimension of several recent trade recommendations. In the second half of this tape, 20-year trading veteran and programmer John Sheely will reveal a mechanical approach that emulates CTS Swing Trading. He'll demonstrate the evidence that swing trading works and will show you why it works so powerfully.

Video 3 unveils the secret to winning on a high percentage of your trades and what that means to your comfort level as a trader. You'll understand why the swing trader has racked up such an amazing track record of steady profits while minimizing drawdown. The key is the exit strategy and we'll show proven techniques that can take your trading to a new level. Last but not least, we cover an in depth section on money management for Swing Trading. You'll learn how much you can risk on every trade and begin to trade with greater confidence.

The guidebook adds supporting elements to each video and is filled with easy-to-read charts and other information designed to augment the visual education.

¹The course described in this offering is for educational purposes. Use the material to help you stimulate prudent decision-making. The performance record mentioned consists of the results of simulated or hypothetical trading which means that the trades were recommended by CTS, but without actual money being invested. Hypothetical performance results have certain inherent limitations. Unlike an actual performance record, simulated results do not represent actual trading. Also, since the trades have not actually been executed, the results may have under- or over-compensated for the impact, if any, of certain market factors, such as lack of liquidity. CTS has made a good faith estimate on slippage for each recommendation. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. When trading futures and options on futures there is risk of loss and past performance is not necessarily indicative of future results. Commissions have not been deducted from results shown.*The bonus offer of access to one of four CTS Swing Trader is subject to subscriber availability in each service. 3 of the 4 services are new and are likely to be available to early purchasers of this course. At the time this offer is being made, the Universe Trader is close to its subscription limit and may or may not be available to new subscribers. Call for details on availability for this or any CTS service. **Please allow 1-2 weeks for delivery.**
